- Quit button that exits to desktop

Player

Player Movement Animations

- Animations for walking, running, strafing, and jumping

- Animations are accompanied by sounds.

Sword-Swinging Animation

- Sound plays when the sword connects with a skeleton

Player Dying Animation

Enemies

Two different enemy types

- Different health and damage values

Different Attack Animations

- Enemies have three different attack animations that they will randomly choose

  between each time they attack.

FOV Area

- Enemies have a field of view around them that tracks if the player is inside of their FOV.
- Once the player enters their FOV or damages the skeleton, the skeleton will continue to chase the player until it dies.

User Interface

Health Bar

- There is a health bar in the top left that displays the player's current health
- The bar decreases in size as the player's health gets lower

Potions

- Underneath the health bar is the potions row
- The player has three potions that allow them to heal 50 hp each
- Each time that the player uses a potion it removes one from the potions bar.
- If the player is below 25 health and has a potion available
    - A Text reminder displays saying "Press H to heal"

Instruction Manual

Basic Movement

- W or ↑ moves the player forward
- A or ← moves the player to the left
- S or → moves the player backward
- D or ↓ moves the player to the right
- Shift allows the player to sprint
- Space makes the player jump

- Mouse movements allows the player to look left and right

Attacking

- Left Mouse Click makes the player attack

Healing

- Pressing H while the player is below max health allows the player to heal if a potion is available.

- Available potions are shown underneath the health bar in the top left-hand corner of your screen.

Goal

The goal of Universe Revived is to kill all the skeletons that have taken over your land. Some skeletons have armor and cool hair which makes them take and deal more damage before they are defeated.
